

# Product Introduction Bonuses (PIBs)

Isagenix gives Independent Associates the opportunity to earn money when they personally help a new Customer start on Isagenix products. If you're an Associate, you can earn a one-time Product Introduction Bonus of between US\$10/CA\$11 and US\$150/CA\$165 for each new Personally Enrolled Customer who joins Isagenix on a qualifying pack or system.

## NEW!

You can now earn additional bonuses with a new Product Introduction Bonus. Earn a bonus equal to **10% of the BV** on new Customer initial orders that don't already come with a Product Introduction Bonus!

### FOR ASSOCIATES:

**If you have a recognition rank of Associate or higher, when you share Isagenix with a new Customer, you'll earn 10% of a PIB on any BV amount from the new Customer's initial order that doesn't already have a fixed PIB dollar amount.**

#### Example:

You enroll a new Customer with a variety of individual products totaling 150 BV, so you receive a PIB of US\$15 (150 BV x 10% = US\$15).

### FOR CUSTOMERS:

**As a Customer, you can also take advantage of this new PIB incentive when you share Isagenix with new Customers!**

When you share PIB packs that have a fixed dollar amount, you'll earn a Product Introduction Reward (PIR) coupon equal to the value of an existing PIB dollar amount. When you share products that don't have a fixed PIB dollar amount, you'll earn a PIR coupon equal to 10% of any BV amount from the new Customer's initial order.

#### Example:

You enroll a new Customer with a Weight Loss Basic Pack, which has a fixed dollar amount PIB of US\$25, so you receive a PIR coupon of US\$25.

### OR

#### Example:

You enroll a new Customer with a variety of individual products totaling 75 BV, so you receive a PIR coupon of US\$7.50 (75 BV x 10% = US\$7.50).

If you're a Customer, you can earn **Product Introduction Reward coupons (PIRs)** when you help a new Customer join and order a qualifying system.

**Help a New Member Join + Product Introduction Pack = Up to US\$150/CA\$165 PIB/PIR**
