

CELLETOI

*An ultra-sensorial experience
to awaken your cells anew*

*Celletoi's transformative blend of
nourishing ingredients is destined to
give your skin an ultra-natural finish with
irresistible luminosity and radiance.*

EXCLUSIVE TECHNOLOGY

Ceraposome Tech

Found in every Celletoi product, this innovative technology enhances the delivery of key ingredients to bring you a skin care range that highlights your natural beauty.

Specifically integrated into each Celletoi product, Ceraposome Tech works as a lifeline for new skin cells by ensuring nourishment reaches the underlying skin cells before they rise to the visible outer layer.

*State of the art
technology enhances
the delivery of key
ingredients.*

EXCLUSIVE
INGREDIENT BLENDS

Celletoi's exclusive
ingredient components
and patented science
technologies are crafted
with the intertwined
powers of science
and nature to create a
transcendent skincare
experience.

Celletoi PDRN

PDRN, or Sodium DNA, are naturally occurring building blocks extracted from new cells found in Salmon. The composition of the nucleic sequence of PDRN is almost identical to that of humans. The similarity promotes faster absorption and can help revitalise the appearance of the skin while strengthening the skin barrier.

Found in all products.

Celletoi Peptide Blend

The Isagenix Celletoi Peptide Blend is a plant-based collection of amino acids, vitamins and six different peptides. It replenishes your skin by working in synergy with your body's collagen, known to give skin its irresistible firmness and elasticity, the key to youthful luminosity and radiance.

Our Celletoi Peptide Blend ensures that the peptides associated with rejuvenated skin are safely synergised, giving your skin the extra supply of peptides it needs for a revitalised and youthful complexion.

Only found in Celletoi Phyto-Peptide Serum.

Celletoi Botanical Blend

This herb complex consists of key botanical ingredients like lavender, rosemary, oregano and thyme. Our botanical blend is developed by applying solid fermentation, which reduces the toxicity of the raw materials to maximise their efficacy.

Found in all products.

Celletoidermattox Biome

The skin provides a habitat to a community of billions of living microorganisms. Celletoidermattox Biome is skin flora composed of a novel bacterial strain and diverse probiotic species that supports the skin's natural barrier.

Found in all products.

Plant-Based Stem Cells

Our plant-based stem cells come from freeze-dried plants, rather than modified plant extracts, to ensure that cell membranes are intact. Celletoi's plant-based stem cells are sourced from two coast plants:

Sea Fennel

Sourced from the Brittany Coast in France, sea fennel is rich in many vitamins and imitates the beneficial properties of retinoids. This helps to reduce the appearance of fine lines and wrinkles, soften the skin without photosensitivity and avoid skin irritation that synthetic retinol often causes.

Found in all products.

Sea Holly

Native to the Mediterranean dunes and sandy beaches, this salt loving plant contains lipids, amino acids, polyols, polyphenols and water-soluble sugars, perfect for enhancing skin's radiance and luminosity.

Snow Algae

Sourced from the stunning Swiss Alps, these single-celled algae is known for its vitality and ability to develop adaptive materials to protect themselves from harsh environmental climates. Known to increase skin hydration and eye wrinkle smoothing.

Found in all products.

Tripeptide-5

Made up of chains of amino acids, Tripeptide-5 can penetrate deep into the skin – past the skin barrier to work in harmony with our body's collagen. This interaction reduces the appearance of fine lines while improving firmness and skin elasticity.

Found in all products.

*Elevate your skin
ritual with Celletoi.*

RITUAL

Celletoi is a simple, convenient and nourishing skin care routine. Combining beautifully precise science behind world-class skin care products and philosophies, with powerful multi-tasking ingredients in a simplified routine.

Protect yourself against the harsh environmental elements during the day before cleansing your skin at night so you can wake up feeling refreshed and reinvigorated. Follows a simple four-step process.

Moisture Balancing
Foaming Cleanser

STEP 1

Treatment
Toner

STEP 2

Phyto-Peptide
Serum

STEP 3

Anti-Ageing
Hydrate Cream

STEP 4

*Luxuriously light foam
purifies and revitalises*

STEP 1

Moisture Balancing Foaming Cleanser

/ 180mL

An intricate foaming cleanser that removes makeup, waste and residue. After disposing damaging impurities and toxins, this delicate cleanser serves your skin as a moisturiser to leave you feeling youthful and subtly smooth.

Application:

Splash your face with warm water. With your fingertips, combine cleanser with a small amount of water to create a rich foam. Gently massage foaming cleanser evenly along your face. Rinse thoroughly with warm water.

Clearing Refreshing Paraben Free Silicone Free Sulphate Nut Free

STEP 2

Treatment Toner

/ 130mL

Energise your skin after cleansing with this non-stick toner that strengthens skin and replenishes moisture. This thin, soothing toner helps control the oil and moisture balance on your skin while removing any residual impurities in preparation for next steps of your beauty ritual.

Application:

Apply to clean hands. Gently spread and tap onto face for absorption.

Clearing Refreshing Paraben Free Sulphate Nut Free

*Hydrating, non-stick toner
to balance and refresh*

Potent peptide blend for a youthful and vibrant complexion

STEP 3

Phyto-Peptide Serum

/ 15mL

Our plant-based replenishing serum hydrates and revitalises the skin to enhance luminosity and radiance. This potent blend of peptides stimulates your cells to give you your most vibrant, energetic and healthy complexion.

Application:

Using your fingertips, lightly tap a small amount of serum to the face, neck and décolletage before gently smoothening.
