

# AMPED™ NOx

Train Better. Train Longer.

## What is AMPED NOx?

AMPED NOx is the perfect pre-workout shot to help prime muscles for maximum performance during high-intensity exercise. AMPED NOx is a pre-workout shot containing a special blend of fruit and vegetable extracts to help boost performance, increase power output, optimise muscle efficiency and reduce fatigue.

## Why do you need AMPED NOx?

- **Antioxidants**  
Polyphenols from grape, cherry, pomegranate and apple juice support overall health.
- **Go the Distance**  
Boost energy, reduce fatigue and improve performance.
- **Nitric Oxide Production**  
Nitrates from fruit and vegetable extracts help give you stamina during training.
- **Pre-Workout**  
Take before training to improve athletic performance.

## How does AMPED NOx work?

Taken before a workout, AMPED NOx contains fruit and vegetable extracts designed to support nitric oxide production and support blood flow for delivery of oxygen to cells.

### Great For:

- Athletes
- Adults looking to improve performance and stamina during high-intensity exercise

SOY-FREE

GLUTEN-FREE

DAIRY-FREE

VEGETARIAN

## Nitric Oxide in Action

Nitric oxide helps blood vessels function normally during exercise. This increases delivery of vital nutrients and oxygen to working muscles and helps delay fatigue. The result of proper nitric oxide production is enhanced muscle efficiency so you can train harder for longer.

## What makes AMPED NOx unique?

AMPED NOx delivers a performance boost with vegetable-sourced nitrates for supporting blood flow to and from muscles. It also contains antioxidants to support overall health.

The effectiveness of AMPED products depends on nutritional timing – when you take each product throughout your workout. There are three windows, pre-, mid- and post-workout, where these products are designed to help deliver results.

\* Ask a general practitioner to monitor you if you are taking blood thinners, nitroglycerin or other blood pressure medications. If you are pregnant, breastfeeding or have a medical condition, consult your general practitioner before using this product. Discontinue use if adverse reactions occur. For ages 18+.
