

Isamune® Plus with Zinc

| New Island Breeze Flavor |

Don't feel miserable during the winter season!

Isamune Plus with Zinc is scientifically advanced to deliver immune-building compounds in a convenient spray to instantly go to work on guarding your health against foreign invaders.*

New Optimized Spray Pump!

How does it work?

Zinc is critical. Zinc supplementation guards the immune system and may significantly increase your number of well days. Zinc functions as an antioxidant and is involved in many critical biochemical reactions. Zinc plays an important role as a component of many enzymes and the catalysts of enzyme systems regulating cell growth, DNA and protein synthesis, energy metabolism, and helping to regulate the production of cells in the body's immune system.

Echinacea (*Echinacea purpurea*), a flowering plant from the daisy family, whose roots and leaves contain medicinal qualities used traditionally as seasonal support.

Reishi mushrooms (*Ganoderma lucidum*), are highly regarded in traditional Chinese medicine and clinically studied for their immune-modulating properties and overall health benefits, including increased youthful vigor and vitality.

Bilberry and Blueberry provide immune-supporting antioxidants that also help guard against free radicals.

And we still have colostrum. Colostrum has a distinct composition providing a range of immune-protecting substances such as proline-rich polypeptides, immunoglobulins, and lactoferrin.

Why do you need it? Here are the facts:

First line of defense. The immune system is the body's first line of defense. Stress, poor diet, and lack of sleep can easily compromise the immune system making it more susceptible. Add to that, seasonal dangers that can compromise your good health and you need to prepare yourself.

Powerful, fast formula. Isamune Plus with Zinc is designed to quickly deliver immune-building ingredients such as Zinc, Colostrum, Echinacea, Reishi mushroom, bilberry, and blueberry. Spraying directly into the mouth will allow the ingredients to be fast absorbed and bolster your immune defenses.*

Delicious! With a new Island Breeze flavor (containing hints of pomegranate and spearmint), Isamune Plus with Zinc makes it enjoyable to support your immune system with the best nourishment daily. You'll be looking forward to every spray!

ISAGENIX®

- Improved gastro-intestinal health
- New, improved spray pump

WHAT IS COLOSTRUM?

Colostrum is rich in proteins including immune properties such as immunoglobulins, proline-rich polypeptides, and lactoferrin to build your body's defense against foreign invaders. Proline-rich polypeptides (PRP), these immune system "building blocks" help maintain a balanced immune system. Immunoglobulins are large proteins that act as antibodies that assist the immune system in defending against foreign invaders.* The colostrum is collected from BSE-free, BST-free, hormone-free dairy—it's also herbicide-free, pesticide-free and preservative-free.
