top 5 tips for success

We asked our nutritionist for her top tips to have maximum success in your first 30 days...here's what she had to say.

1. Enter the IsaBody Challenge®

This is about you and your own personal progress, and the IsaBody Challenge is a great tool to keep you accountable. It's free to join, plus you'll get the support of our IsaBody community, have access to a free fitness programme in our IsaLife™ app, and you'll earn yourself a product coupon worth £150 / €165 just for completing the challenge!

2. Use the IsaLife™ app to track your progress

This app will become your new best friend! It's a great way to keep track of your weight and other measurements, but you can also enter all of your meals and snacks (Isagenix products as well as other foods) so you can keep track of everything!

3. Don't ban foods

Remember, there's no such thing as an unhealthy food, just an unhealthy diet. Banning your favourite foods will only make you crave them more. Instead, just use the IsaLife app to make sure you still have a healthy balance across the week, even with the occasional treat!

4. Plan your Cleanse Days

If you're apprehensive about going all day without your regular meals and snacks, you're not alone. Thousands of people around the world have felt the same, but then they gave it a go, loved it, and now include Cleanse Days as part of their wellness routine. Don't go straight into a Cleanse Day though – we always recommend a couple of Shake Days first.

5. Enjoy time with family and friends

Remember this is a lifestyle change, not a diet. Enjoy yourself, have fun with your loved ones, make memories, and just make sure you get back on track the next day (don't put it off until Monday!).

CLEANSE DAY

Nourish. Balance. Revitalise.

Nourish for Life is packed with nourishing botanicals to support your body's natural detoxification process, and is a key feature that makes Cleanse Days different from ordinary fasting.

What is a Cleanse Day?

Cleanse Days are our version of intermittent fasting. Intermittent fasting is not just for weight loss! It can also benefit your overall health and wellbeing, and we've created an easier way to make fasting part of your routine! You'll drink Nourish for Life four times during the day to maintain energy and focus. Then choose from several tasty snack options to help you out. You can even satisfy your sweet tooth on a Cleanse Day... as long as it's an IsaDelight™!

- Nourishing B vitamins to help reduce tiredness and fatigue*
- Biologically active botanicals, like ashwagandha, aloe vera leaf, Siberian ginseng root, peppermint leaf and more.
- Drink four times throughout your Cleanse Day to maintain energy and focus.
- Can also include as part of daily routine, either on its own, over ice, or mixed with cold or warm water.

* B vitamins [B6, B12 and niacin (B3)] contribute to the reduction of tiredness and fatigue.

Is Nourish for Life only for Cleanse Days?

No! You can reap the benefits of Nourish for Life every day – we call this 'Everyday Cleansing'. If fasting isn't for you, this is the perfect alternative! Just have one serving (59ml / 1 scoop mixed with 60-120ml water) of Nourish for Life either first thing in the morning or before bed in the evening.

How many Cleanse Days can I do per month?

You can include up to four Cleanse Days throughout the month, and it's up to you how this looks. You can do four single Cleanse Days (e.g. one per week), or two Double Cleanse Days, where you do two days back-to-back twice per month.

Nourish For Life™

Own fast days (or any day) with a nourishing drink made from a synergistic blend of herbs and botanicals to help give you energy. Think intermittent fasting isn't your thing? Think again.
