

Red Ginseng Shot™

Health functional food that gives more energy and vitality by supporting fatigue-release and immune function.

WHAT IS RED GINSENG SHOT?

A health functional drink that helps provide more energy and vitality and improves immune function for those with a busy lifestyle.

WHY DO YOU NEED RED GINSENG SHOT?

The busy modern lifestyle doesn't allow enough breaks. Being continuously exposed to the harmful environment can cause the immune system to function at a lower level. Red ginseng shot provides more vitality and increases immunity. It also supplies Mate, Siberian ginseng, Rhodiola, Chaga mushroom and other phyto-nutrients as a sub-ingredient.

HOW DOES RED GINSENG SHOT WORK?

- **Fatigue release & energy boosting** Red ginseng helps to relieve fatigue and provides more energy for an active life.
- **Improves immunity** Supports immune function and increases vitality.
- **Improves memory function** Supports memory function.
- **Supports healthy blood circulation** Red ginseng inhibits coagulation of blood and supports healthy blood circulation.
- **Anti-oxidative function** Protects normal cell from damage caused by free radicals
- **Sub-ingredients** Mate, Siberian ginseng, Rhodiola, Chaga mushroom and other various phyto-nutrient.

HOW TO USE:

Take 1 bottle(60ml) daily.
