Information provided in this publication, and on packaging, and labels is for general purposes only and designed to help you make informed decisions about your health. It is not intended to substitute advice from your GP or healthcare professional. If you are pregnant, breastfeeding, diabetic, on medication, have a medical condition or are beginning a weight loss program, consult your GP before using Isagenix products or making any other dietary changes. Discontinue use if adverse events occur.

The statements appearing in this publication have not been evaluated by the Therapeutic Goods Administration. These products are not intended to diagnose, treat, cure or prevent any disease.

Weight loss should not be considered typical. In a study performed in 2012 by University of Illinois at Chicago researchers, subjects lost an average of 4.1 kg with an average of 0.9 kg of the loss from visceral fat after 30 days on an Isagenix system. The subjects also had a greater level of adherence and had more consistent weight loss from week to week compared to subjects on a traditional diet.

Earning levels for Isagenix Independent Associates discussed here should not be construed as typical or average. Income level achievements depend on individual Associate's business skills, personal ambition, time, commitment, activity and demographic factors. For average earnings, refer to ANZ.IsagenixEarnings.com.

Results You Can't Get Anywhere Else™

Guarantees and assurances seem to lead the advertising of so many health and wellness companies. We're not here to promise the impossible and we're not here to mislead, overpromise or underdeliver.

Our mission is to empower people like you to live the life you want, through physical and financial transformations. We provide our Members with the opportunity to build a legacy and lifestyle, not a quick fix.

Thousands of people see lasting results they can maintain for a lifetime using Isagenix, our programs and support. We share a community that will stand behind your success, cheering relentlessly as you cross the finish line and beyond. From your very first product experience, we consider you part of the Isagenix family.

We offer Results You Can't Get Anywhere Else™. Thousands of people across the world have shed millions of collective kilos, reclaimed healthier lifestyles and built prosperous futures for their families with the help of the Isagenix System. Whether you share these goals or are seeking something entirely different, we're glad you found us.

HOW ISAGENIX WORKS

You're on a journey to better your health – and feel great in the process – and we're here to help you get there! Isagenix uses Shake Days and Cleanse Days to reset your metabolism and help you achieve your goals.

SHAKE DAYS

On a Shake Day, you eat one well-balanced meal and replace the other two meals with delicious, nutritious Isagenix shakes. To help satisfy any cravings in between meals, you can enjoy a couple of our calorie-controlled snacks. Plus, we offer a few select supplements to help support your metabolism and help protect you against the negative effects of stress.

Unlike many rigid programs, the Isagenix System is flexible and is designed to become part of your daily schedule – no matter how busy life gets.

After completing your first few Shake Days, you're ready for a Cleanse Day.

CLEANSE DAYS

A Cleanse Day gives your body the opportunity to experience the benefits of intermittent fasting and detoxification while still making sure you get nutritional support. You'll drink Cleanse for Life® throughout the day and help keep hunger at bay with approved snacks.

When you purchase an Isagenix Pack, you'll receive a System Guide to guide you through your Shake Days and Cleanse Days. Use it as a reference on your journey and keep it with you as you track your results!

The combination of Shake Days and Cleanse Days is unique and truly a game changer for your health. But, don't just take our word for it; there's science behind every product we offer.

IMPORTANT REMINDER: You should consult your GP before starting this or any other fitness or weight loss efforts to determine what is right for you. If you are pregnant, breastfeeding, diabetic, on medication or have a medical condition, consult your GP before using Isagenix products or making any other dietary changes. You should always follow your GP's advice. If you experience faintness, dizziness, pain, shortness of breath or other adverse events at any time, you should stop immediately and seek appropriate medical care.

A COMMITMENT TO SCIENCE

Since its inception, Isagenix has led with science-backed products. We continue to put our products to the test in discovering how they can benefit health. By partnering with well-respected universities and laboratories in funding and conducting clinical studies, Isagenix is contributing to evidence-based nutrition research while also providing clinical evidence that Isagenix systems promote healthy weight loss and healthy living.

INGREDIENT POLICY

Healthy, Safe, Transformative

No matter how much we grow, our no-compromise commitment to the quality of our products and ingredients will never change. Product quality – and your health – is our highest priority.

We focus on rigid third-party testing and the sourcing of only the highest-quality, no-compromise ingredients.

Our products use no artificial sweeteners, colours or preservatives and most of our products are gluten-free.

At the end of the day, if it's not right for you as the Customer, then it's not right for us as a company.

BUILDING A LEGACY

OUR PURPOSE

Isagenix is a trusted and respected organisation that exists to inspire and empower individuals, families and communities to live their best life through a journey of nutrition, health and overall wellness.

OUR LEADERSHIP

Over the course of his career, Isagenix Founder John Anderson formulated over 2,300 nutritional supplements and weight loss products for over 600 companies. His intention when starting Isagenix was to provide market-leading products using revolutionary formulas with the highest-quality, most effective ingredients. He knew network marketing was the perfect vehicle for sharing these products with the world, and reached out to Isagenix Co-Founders Jim and Kathy Coover.

Jim and Kathy have more than 50 years of combined experience in the direct sales industry. They understand what it's like to build a network marketing business.

Erik Coover is passionate about bringing out the best in people and leads Isagenix from the front by holding fast to his parents' vision of creating a legacy company in which people can build brighter futures for themselves and the next generation.

Erik began with Isagenix as an Independent Associate, building his own successful business while at university. He is the force behind START, the worldwide movement that unites and ignites young Isagenix leaders.

OUR CHARITABLE PARTNERSHIP

Since 2012, Isagenix has partnered with Make-A-Wish® as part of our mission to create a lasting legacy. Worldwide, Isagenix has raised almost \$10 million to help grant life-changing wishes to children with critical illnesses. You can get involved via your Back Office, by making a one-time donation, adding a monthly donation to your Autoship order or donating a portion of income you earn with Isagenix.

OUR COMMITMENT TO SUSTAINABILITY

We're committed to choosing environmentally friendly packaging for our products and integrating sustainable materials whenever we can.

- We aim to convert all packaging components to be made of recyclable, reusable, compostable or recycled materials by 2028.
- As of Earth Day 2018, Isagenix began transitioning bottles and canisters to 100 percent post-consumer recycled (PCR) plastic, starting with more than 8 million IsaLean™ Shake and IsaPro® canisters produced annually. By 2023, all bottles and canisters will be made from PCR plastic.

While zero waste is our goal, the quality of our products remains our first priority. Isagenix focuses on sustainable ingredient sourcing.

Our dairy ingredients, like the grass-fed whey protein used in IsaLean™ shakes and bars, are sourced from New Zealand, Australia and the US. Our suppliers must align with our no-compromise standards including verified animal care, well-managed natural grazing and no use of hormones or routine antibiotics.

The fish oil used in IsaOmega™ is sourced from anchovies and sardines from suppliers that are certified by Friend of the Sea™, which ensures that stocks are not overexploited, there's no impact on the seabed, no bycatch of endangered species and a commitment to carbon reduction.

Our botanical ingredients, including exotic adaptogens found in Cleanse for Life™ and Ionix® Supreme, are sourced from suppliers with verified standards for preserving existing biodiversity. We thoroughly test all ingredients for authenticity, identity, pesticides, herbicides and heavy metals.

Our suppliers of other ingredients including sweeteners, flavours, vitamins and minerals must demonstrate commitment to the reduction of food waste, landfill and water and fuel usage. We seek suppliers with internationally recognised ethical trade standards, who support local farmers, promote productive soils and seek to preserve biodiversity.
