

# ISAGENIX COMPARABLE PRODUCTS

Since the Isagenix acquisition of Zija, both teams have been actively transitioning our two organizations with as minimal disruption as possible. As part of this overall transition, we found a number of products that no longer fit with the overall direction and business strategy of Isagenix. After thoughtful consideration, we have decided to discontinue the following products and their related kits.

Our goal is to ensure that you have access to the highest-quality products available so you can continue to feel great and grow your business. We've provided a list of the Zija products that have been (or soon will be) discontinued and the closest comparable Isagenix product. Thank you for your patience and understanding during this exciting transition period!
