

ISAGENIX[®]
THE ART OF WELLBEING.

Earnings Disclosure Statement

ISAGENIX HAS TWO TYPES OF MEMBERSHIP ACCOUNTS:

1. Customers

Customers can purchase Isagenix products at reduced prices for their own or household use but cannot participate in the Isagenix Team Compensation Plan.

2. Associates

Associates can purchase Isagenix products at reduced prices for their own or household use or for resale; they have the opportunity to earn money by selling Isagenix products to retail customers and from purchases made by Customers and Associates in their marketing organization.

A majority of new Members join Isagenix primarily to purchase Isagenix products at a discount.

Approximately 85% of those Members who joined Isagenix in the U.S. in 2019 opened Customer accounts only and were not eligible to earn income from Isagenix.

The Income Opportunity

Business does not require significant investments in inventory or additional materials. Associates can set their own hours and workplace and leverage the business mobile app to build a virtual business. \$29 annual membership fee applies.

May be rewarding, but like any worthwhile business venture, results vary widely depending on many factors, including sales and business skills, effort, time, and demographics.

Does not offer quick riches or guarantees of success. Building any long-term business is challenging, and relatively few achieve significant long-term financial success.

The information below reflects performance of independent Isagenix Associates in the United States. For this disclosure, we divided our Associates into two groups. Group 1 reflects typical earnings of new Associates and Group 2 reflects typical earnings of experienced Associates for 2019. As with any business endeavor, success depends on many factors, including time and significant effort.

GROUP 1

Refer to this if you want to know about how much money active new Associates earn in their first 12 months with Isagenix.

Group 1 includes Associates who enrolled at least one other Isagenix Member and earned money within the first 12 months after becoming an Isagenix Associate.

Approximate median earnings of typical Associates*: \$230.00

10% made more than \$1,400.00

Approximately 60% of new Associates earn money in their first 12 months.

GROUP 2

Refer to this if you want to know about how much money active Associates earn after being with Isagenix for more than 12 months.

Group 2 includes Associates who had enrolled as an Associate in any year prior to 2019 and earned money in the year 2019.

Approximate median earnings of typical Associates*: \$645.00

10% made more than \$5,670.00

Approximately 11% of all current Associates who enrolled prior to January 1, 2019 earned money in 2019.

Costs and expenses will vary and are not reflected here. Past Associate performance is no guarantee of future income.

*About 50% of Associates who earn money are paid more than this amount and about 50% are paid less.

As of Dec. 31, 2019, there were 308 Isagenix Associates globally who exceeded \$1 Million in cumulative gross earnings since joining Isagenix, with 206 of them being U.S. Associates.

Associates who achieve this earnings milestone are sometimes referred to as "Isagenix Millionaires." Those in the U.S. group averaged approximately six years as an Isagenix Associate before achieving these earnings, with the longest being over 16 years.

Earning representations reflect gross amounts that do not include any business expenses associated with pursuing the opportunity. Associates are responsible for their own business expenses, and these expenses will vary greatly.

The ability to earn money with Isagenix depends on many factors including an individual's business, social, and sales skills; personal ambition and activity; availability of time and financial resources; and access to a large network of family, friends, and business contacts.

Isagenix cannot and does not guarantee any particular level of earnings. Even those who dedicate a significant amount of time, effort, and personal funds may not achieve a meaningful level of success.
