

AMPED™

BCAA PLUS

BCAA Plus is loaded with amino acids to help you create lean muscle and sustain energy levels and performance so you can enjoy your active journey.

Why Branched-Chain Amino Acids are important

The BCAAs — leucine, isoleucine and valine — make up more than a third of the essential amino acids found in skeletal muscle protein. BCAA Plus helps supplement the energy within your skeletal muscles when your glucose levels begin to run low during your work

More than an energy source

While BCAA Plus helps give you a boost during your workout, they're also known to build and maintain lean muscle mass.

BCAA Plus

- Blend of BCAAs, L-glutamine, L-carnitine and more.
- 45 calories, 7 g carbs and just 5 g sugar.
- Made with natural ingredients and no artificial colours, flavours or sweeteners.
