Product FAQ

Why do I need Isagenix Greens?

Most of us aren't eating enough vegetables, and one of the reasons for this is convenience. Isagenix Greens is an easy way to get more green veggies into your daily diet – and it tastes great too!

What makes Isagenix Greens unique?

There are lots of 'greens powders' on the market, so we wanted to create one that stood out from the crowd. That's why we've used whole vegetables – not extracts or juice powders – to provide whole foods-based nutrition that's delicious and convenient.

What vegetables are in Isagenix Greens?

We've included spinach, kale, spirulina, broccoli and chlorella to give you a variety of goodness in every scoop. We've combined these nourishing greens with a blend of other natural ingredients like coconut water and turmeric, and instead of adding in extra sugars, we've used sweet potato, apple and stevia to give our greens a lightly sweet flavour without the extra sugar and calories.

How do I use Isagenix Greens?

You can mix 1 scoop with 240ml water, or alternatively you could add it to your IsaLean™ Shake or your favourite smoothie recipe. You could also mix with your IsaPro® as a post-workout smoothie or before bed, or add to recipes like pesto, dressings or dips

Who can use Isagenix Greens?

Isagenix Greens is suitable for anyone aged 4 years and over, making it great for the whole family.

How much can I consume each day?

We recommend consuming 1-2 scoops of Isagenix Greens each day.

Is Isagenix Greens Cleanse Day approved?

No, Isagenix Greens is not part of our recommended Cleanse Day protocol.

Is Isagenix Greens vegan?

Yes, Isagenix Greens is plant-based and suitable for vegans.

It's more than likely you aren't getting enough veggies in your diet. In fact, more than 70% of us aren't eating the recommended amount each day. The solution? Convenience!

Our NEW Isagenix Greens has a blend of spinach, kale, spirulina, broccoli, chlorella and more, so all that's left for you to do is mix with water or add to your IsaLean shake - perfect for even the busiest of days!

Don't get green with envy - I'm ready to share this solution with the world! Shoot me a message to chat.

Who else has all the best intentions on their weekly food shop, and then ends up throwing most of it in the bin at the end of the week? We've all been there. And we all know that food waste is an important issue, but we also know that we need to eat more veg. So, what's the solution?

Now that Isagenix have launched their NEW Greens powder, I can worry a bit less. Yes, I still need to eat veg (can't get out of it that easily!), but now I have a tasty and convenient way to make sure I get my green veggies EVERY day! And what's even better, is that the whole family can benefit!

So go ahead, shoot me a message!

We're all friends here, so let's talk about how much veg we're eating on a daily basis. You might be thinking, "I take vitamins, so I'm good, right?". The truth is that plants contain essential phytonutrients that aren't typically found in supplements, so you might not be getting everything you need from your daily multivitamin.

Worry not - I've got a way that's quick and easy (plus it tastes good too - always a bonus!) so we can all get more veggies into our daily routine (kids included!). My whole family loves it now! If you're keen to find out more, send across a message!
