

Step into your glow //

**14 - Day**  
**Social Campaign**

## Before, Progress and After Photo Checklist

- Remove all makeup, pull back hair and away from your face.
- Find a well-lit room with a plain background, free from other people and pets to limit distractions in the photo.
- Make sure your camera is in focus and the lighting is even across your entire face.
- Take a picture of your full face, neck (both sides). Also, include hand pictures and even a video of you pinching the skin on your hand.
- When you take your 'Progress' and 'After' photos, use the same background, lighting, time of day, skincare routine and relaxed facial expression that you did in the 'Before' photo.
- DO NOT** use a different expression, makeup, skincare routine hairstyle, lighting or filter.

## Compliance requires truthful transformation posts

### Please include:

- Amount of time on product, mention daily usage, share what other products you used in conjunction and add disclaimer  
*\*Results not typical. For best results, consume one bottle daily for at least 30 days.*
- DO NOT MENTION** the name of a skin condition or disease, such as Acne, Melasma, Eczema or Rosacea. We do not claim to diagnose, treat or cure ANY disease, including those of the skin.

# PLEASE NOTE

*This information is for my  
AU and NZ Customers only.*

**Note:** This social media campaign is **NOT** intended for use in countries where Collagen Elixir is only available NFR (such as Canada) where sharing NFR products on social media or in gyms, salons etc. is prohibited.

## How to use this campaign guide

### Images/Videos

Every day for 14 days, you'll find a 'Post of the Day'. For the post, you'll find an image/video idea. Some are provided for you via a link for you to download, but some of the content you will need to create yourself.

### Written Content

Each post has written content (unless it's just a video for your social media 'stories'). Please feel free to modify the verbiage to fit your voice and personality. Never exaggerate claims or filter transformational images.

Using a blend of your own images, your own voice and modifying the verbiage, you'll create unique and authentic content for your audience.

## Selling Simplified

**STEP 1:** When someone wants 'more information' on Collagen. Send this video which explains Collagen Elixir. Link if required: <https://vimeo.com/444099590/97b61e9cd8>

**STEP 2:** After they watch the video, send them the appropriate pricing images: [Bundle Shareable Images](#)

**STEP 3:** Once they tell you which pack they want, send them a cart. How to share a link tutorial: <https://vimeo.com/533853881/c73764a166>

## Other Resources

Click for compensation video with Collagen Elixir for [Australia](#) or [New Zealand](#). Watch this video to grasp the potential of 10x-ing your Isagenix business with Collagen Elixir. This video is for private sharing in private groups or by text. This is not to be posted on a public FB page.

# Before your box arrives

Warm up your audience by asking questions

**Pre-launch 1: Facebook Post/Instagram Story: Choose one question.**

*'I need your help, what's your top tip for managing your time effectively?'*

*'I need your help; which dinner delivery service is your favourite?'*

**PRO TIP:** Instagram Stories, use the QUESTION or POLL sticker for engagement

**Pre-launch 2: Facebook Post/Instagram Story**

Continue to share NON Isagenix recommendations  
(books, unique gifts you received, recipes, apps, children's toys/apps etc.)  
before and during the campaign.

**Q:** Can I take Collagen Elixir if I am pregnant or breastfeeding?

**A:** While Collagen Elixir contains food-based ingredients that can safely be consumed by pregnant/nursing women, it's always best to consult with your GP before starting using any supplements.

**Q:** What are the different types of collagens?

**A:** There are at least 16 different types of collagen. However, there are a couple that stand out most.

Types I & III are the most prevalent, with Type 1 accounting for 90%. Type I collagen is accountable for strong hair, skin, nails and bones. Type III serves for bones integrity and for the blood circulation system vessels strength.

While type II collagen is less prevalent within the human body, they are renowned for promoting joint health. Type II collagen is sourced from animal collagen, as opposed to marine collagen sourced for type I & III.

**Q:** Does Collagen Elixir use hydrolysed marine collagen or a collagen peptide?

**A:** Our marine collagen is both hydrolysed and a collagen peptide! What do we mean by hydrolysed? This is the process where large collagen molecules are broken down during a reaction with water into smaller molecules that are commonly referred to as 'peptides'. Therefore, our Marine Collagen is also a collagen peptide.

## Post an image of your Collagen Elixir bottle with your skincare products

Post on FB, Instagram Feed and Instagram Stories:

Did you know that women spend thousands of dollars on skincare and services for just their face alone (and I'm sure this is similar for men too). I don't know if you have seen the results I shared from this Collagen Elixir (text me and I can send you a few before/after). And it's not just the face! Customers are seeing improvements on hands, necks, elbows and feet!

I love how I am creating similar results for a price less than my favourite coffee a day!
