

Our Goal Is Zero-Waste Packaging by 2028

As of April 2018, all IsaLean® Shake canisters are being made of post-consumer recycled HDPE plastic.

As of March 28, 2019,
we have saved approximately:*

7,359,000

milk jugs' worth of virgin plastic

270,000

gallons of oil

10,400

kilo-watt hours, which is enough to power 960 homes for a year

158

cars' worth of CO2 emissions

*Estimated figures based on the actual HDPE plastic usage by Isagenix for IsaLean Shake canisters between May 2018-April 2019 and expected resource and energy expenditures required for post-consumer recycled HDPE plastic compared to virgin HDPE plastic.

ISAGENIX

LET'S TALK ABOUT BOXES

151 cardboard boxes can be made from a single tree

5,300,000 boxes were shipped globally by Isagenix in 2018

THE POWER OF RECYCLING

If we recycled all the boxes shipped from Isagenix globally, we could save approximately:

35,100 trees

191 cubic yards of landfill space

107,000 gallons of air pollution

12,439,000 gallons of water

675,000 gallons of oil
