FAQ

How is cycle growth calculated?

Your Net Cycle Benchmark is created by averaging your 4 previous weeks' paid cycles. Each week, the difference between your paid Team Bonus Cycles and your Net Cycle Benchmark will determine your Weekly Net Cycle Growth. Your benchmark average will round down. For example; if you get a benchmark of 3.89, your benchmark will be set to 3. Your Weekly Net Cycle Growth for each week in the month is combined to determine your monthly Net Cycle Growth.

How will the pool be paid out?

The number of total shares earned by all Associates during the month is divided by US\$75,000 to calculate the value of one share. That value is multiplied by the number of shares you earned to calculate how much you earn. This will be calculated in and paid USD. The maximum payout each month is US\$2,500.

How long can I participate?

Active Managers who qualify for the Manager Pool can participate for a maximum of three consecutive months. The first month you participate will count as month one. After three consecutive months you will no longer be eligible to participate in the Manager Pool. If you advance to Director and maintain the Active Rank of Director from the following month you will be able to participate in the Director Leadership Pool. You'll play in in Manager pool until the week you hit Paid-As Director for 7 days. Once that occurs, you will only be eligible for the Director Pool the following month.

EXAMPLE: Paul participated in the Leadership Pool in May 2019 as a Director for the first time. Regardless of his participation over the next months, the last month he can participate in the Leadership Pool as a Director will be July 2019.

What happens if I rank advance from Director to Executive during the competition period?

You'll play in in Manager pool until the week you hit Paid-As Director for 7 days. Once that occurs, you will only be eligible for the Director Pool the following month.

EXAMPLE: In the month of December, Mary has been an Active Director for three weeks and she rank advances to Executive during the same month. She will be eligible to participate in the Director Pool for December. Then starting in January, she is no longer eligible for the Director's Pool.
